SPONSOR & EXHIBITORS
PROSPECTUS 2026

WELCOME TO ERF 2026 FROM euRobotics

“That was the best ERF ever!” We hear this every year after yet another successful and hugely enjoyable European Robotics Forum. We hear it from our regular visitors who come back year after year. That’s important to us, because it shows that ERF becomes more attractive every year as people take part in ERF in ever greater numbers. We hear it from our exhibitors, and that’s important to us, too, because our exhibitors bring so much energy, vitality and variety to every ERF. Very importantly we hear it from our sponsors, and that’s hugely important to us, because we want our sponsors to get the best value from their participation, and because their support enables us to keep building ERF bigger and better, year after year.

Thanks to our sponsors past and present, ERF enjoys an unrivalled position and reputation as Europe’s foremost annual robotics event. It provides a unique meeting place for research and industry, where science rubs shoulders with business, and where technology innovators meet entrepreneurs who can help bring new applications to market. Before ERF, during the Forum and afterwards, too, we continue to work hard to make sure our sponsors are happy in the knowledge that they made a very good decision to support us. More than that, as Europe’s robotics association, euRobotics is about building relationships, never more so than at ERF. So we hope you’ll want to get involved and be a part of what we’ve already started to create for ERF 2026 in Stavanger. This prospectus will tell you everything to get you started. Beyond that, see you at ERF!

WELCOME BY STAVANGER TEAM

On behalf of NORCE, SINTEF and the organising partners, we wish to welcome you to the European Robotics Forum 2026 in Stavanger, Norway!

Robotics for the blue economy and growth in space (motto of ERF 2026) represents a significant intersection of advanced technology and sustainable development. Together, these two domains highlight the transformative potential of technology in addressing some of the most pressing challenges of our time. By harnessing the power of robotics, we can promote sustainable practices in our oceans while simultaneously advancing our capabilities for space exploration, ultimately fostering a more resilient and prosperous future for both our planet and beyond.

Stavanger has been a hub for trade, shipping, and business for centuries. International networks have been developed as far back as the Iron Age. Stavanger is known as the energy capital of Norway, and the city and its surrounding region is recognized for agriculture, technology and innovation.

Stavanger's technological journey, which began with fishing and canning, was accelerated by the oil and gas industry. The advanced subsea expertise developed in the North Sea is now being applied to new frontiers, from robotics in the deep sea to technology for outer space, continuing a legacy of ocean-driven innovation.

Welcome ERF2026 to Norway in 2026. A date to wait for - a date to remember!

Best regards,
Nabil Belbachir

WHAT IS ERF?

The **European Robotics Forum (ERF)** is the leading event for the European robotics and AI community, bringing together over 1,000 participants from industry, academia, and the public sector. Held annually in a different European city, ERF is the go-to platform to explore cutting-edge technologies, foster collaboration, and address the latest challenges and trends shaping the future of robotics in Europe.

WHY SPONSOR ERF2026?

As a sponsor of ERF2026, your organization will benefit from a unique platform to amplify your visibility, connect with key stakeholders, and shape the future of European robotics and AI:

- **High Visibility:** Present your brand to 1,000+ participants, including industrial leaders, policymakers, research institutions, and innovators across diverse sectors. Enjoy exposure through on-site branding, conference materials, and extensive **social media coverage**.
- **Networking & B2B Matchmaking:** Engage with decision-makers, researchers, and entrepreneurs through structured B2B matchmaking sessions, social events, and dedicated sponsor networking spaces.
- **Talent & Innovation Access:** Discover breakthrough research, meet top academic talent, and connect with pioneering startups. Participate in **hackathons** and innovation showcases where new ideas are born.
- **Thought Leadership:** Attend and contribute to **interactive workshops**, panel discussions, and technical sessions that shape the European robotics agenda. **Engage in the conversations that will define the future of the industry.**
- **Tailored Sponsorship Options:** Choose from a variety of customizable sponsorship packages designed to align with your strategic goals and maximize your impact.
- **Strengthen Robotics in Europe:** Support the development of the European robotics ecosystem through active collaboration with **euRobotics** and alignment with ERF's mission to drive responsible innovation in AI and robotics.

WHY STAVANGER?

Stavanger, a vibrant and innovative hub in Northern Europe, offers a unique setting where tradition meets technology. As a dynamic region investing in smart industry, energy transformation, and digital innovation, it provides the perfect backdrop for advancing robotics and AI dialogue across sectors.
